PROGRAM & OPPORTUNITY OVERVIEW

A pilot program from the CPASS Foundation that brings math, science, and other STEMM subjects to life through virtual reality (VR). Scholars use VR headsets to explore immersive, curriculum-aligned lessons — no textbook required.

ELIGIBILITY SNAPSHOT

Open to current 8th and 9th grade students in good standing at an Illinois public, charter, or private school, and in the Chicagoland Area.

Eligibility is subject to change — visit our website for the latest details.

INVESTMENT & SUPPORT

STEMM-3D is a Scholarship-Funded program — no tuition cost to participate. A fully refundable deposit is required to receive VR equipment, returned once the headset is returned in good condition.

Details are subject to change — check our website for current information.

THE SCHOLAR EXPERIENCE

Scholars work through self-paced VR lessons each week, exploring subjects like anatomy and geometry in 3D.Strong performers may be prioritized for CPASS's flagship STEMM Scholars Academy.

Program structure is subject to change.

NEXT STEPS TO APPLY

Check your eligibility, create an account, and submit the full application online.

As a pilot program, the application process may be updated — visit our website for the most current steps.
